Blind Dog

Bodyjar

Simplify don't deny all the
Things you feel inside
Should I stay? Break away,
It's not what you're thinking
Take a side, compromise,
Gonna let you down again
Strap yourself in for the ride,
It's not what you're thinkingTolerate, sympathise,
Will they ever realise?
It's all about what you do
Not what you're thinking
Keep it in, make it known,
Plan to never be alone
Take a break, take a pill,
It's not what you're thinkingAnd then you go and throw your life away
Don't be afraid of your own mistakes, hey
And then you go and throw your life away
I don't care what you're told to say, hey
You want nothing
You got nothingBut if you keep me waiting here
I'm gonna fade away I know
But if you keep me waiting
keep me awake
