Media Creations

Agathocles

Yeah grunge tunes are oh so cool
For big bucks behaving like a fool
Generation X won't change no shit
It's only waiting for the next big hitSatanic notes for evil blokes
Black ritual crap another joke
Kill the rest coz we're the best
Yeah Satan's watching from behind his desk...Media creates and you consume
You're being part of a commercial boom
And if you're so alternative
Then do it yourself and be active
