Let's Not Play The Game

Maxwell

So if this is you, here's what you should do
Don't even come up, don't even say stuff
You know it ain't true, baby, what's the use
Let's not play the game
She used to be the dreams I'd dreamed of
The air that I breathe, the words I speak of
But in reality the girl was out for gold, yeah
Honey, honey, let's not proceed
If it's because you're out for cheese
If it's just the things associated with me
Girl, don't play no roles
So if this is you, here's what you should do
Don't even come up, don't even say stuff
You know it ain't true, baby, what's the use
Let's not play the game
Let's not play the game
Let's not play the game
Don't get me wrong 'cause I still believe
Baby, baby, I still believe that love is all that ever was
And love is all that it ever will be
See, but it's about honesty
So, so let's not play the game
Let's not play the game
So if this is you, here's what you should do
Don't even come up, don't even say stuff

You know it ain't true, baby, what's the use
Let's not play the game
Let's not play the game
Let's not play the game
So if this is you, here's what you should do
Don't even come up, don't even say stuff
You know it ain't true, baby, what's the use
Let's not play the game
Let's not play the game
So if this is you, here's what you should do
Don't even come up, don't even say stuff
You know it ain't true, baby, what's the use
Let's not play the game

Let's not play the game
Let's not play the game
Let's not play the game
All I ever wanted to give you was a little bit of lovely
Let's not play the game
All I ever wanted to give you was a little bit of happy
Let's not play the game
No, but apparently all you really wanted was the money
Let's not play the game
Let's not
Let's not play the game
