we tear it down from Montigo to the Vegas strip
can't stop to slow it down that's just inadequate
i keep on talking shit so maybe i should quit with it
the n***** take the vocal and raise the radar
got me feeling like i'm darth vadar now my flow raises hoes like the escalator
we are moving up like an elevator mosh pits dance floors it don't really matter
all the girls in the front whatcha doing later?
all the ladies we mug got a lot of haters
not a lot of love keeepin it straight thriller (?)All around the globe we rock the chteau
flashing lights explode and we killing we killing it
Paris to the Dome in and out the strobe
flashing lights explode and we killing we killing it
tres cool tres cool
my hips and thighs will make you die
