Superficial Fantasy

Shola Ama

Superficial fantasy
Superficial fantasy
I found myself floating in a little dream
You were there your eyes they shone like golden streams
I reached out my hand to you
And called your name
Then I awoke here alone
I was dreaming againAnd baby I just can't believe
That you weren't really there with me
Baby it was oh so real
But it was just a dream
And baby I just won't believe that you were never there with me
Cause baby it was oh so real
In my dream
In my dreamSuperficial fantasy
I imagined you were here with me
Superficial fantasy
I was drifting in my sleepSweet memories keep going around and round my head
And I for now am sorry bout the things I saidYou were always there when I needed you to pull me through
What was I thinking when I thought of leaving youAnd baby I just can't believe that you were really there with me
Why didn't you just come to me
Come and wake me from my sleep
It don't have to be a dream
It could be reality
Baby I just wont believe
That it's just a dream
That it's just a dreamSuperficial fantasy
Ohhhh I imagined you were here with me
Superficial fantasy
I was drifting in my sleep
Superficial fantasy
It was just a dream
Superficial fantasy
I was drifting in my sleep and boy I hope we can make this dream come true
And boy I know that I'm safe with youBut will we grow to see our dream
Because realityAnd baby I just can't believe that you weren't really there with me
Baby it was oh so real
Was it just a dream

And baby I just won't believe that you weren't really there with me
Cause baby it was oh so real
In my dream
In my dreamSuperficial fantasy
Superficial fantasy
Superficial fantasy
Superficial fantasyIt was just a dream
It was real babe so real babyIt was just a dream
It was oh so real it was oh so real
Baby I know that you were there with me in my dream
I know that you were there with me in my dream
Honey I know that you were there with me in my dream
I know that you were there with me in my dream
Baby ooooooooohhh
