

# The Rescue

## Triple Fast Action

[Verse 1]I'm running backwards in the rain

    Got my hand up for a taxi

    I finally got her name

Then we slipped into the backseat

    I whisper, "are you okay?"

    she nods her head with feeling

    I could see the pain

    and I can not explain how

[Chorus]I am captivated by

    the way you look tonight

and I've seen what you've been into

    So I will never cross the line

    I won't tell you any lies

    I was sent here for the rescue

[Verse 2]She couldn't see past his stare, when desire took them over

With a quick and simple prayer she cried, "God bring this to closure"

"I can not take this anymore and I know that what I'm waiting for

    is so much bigger, so much better, get me out, please deliver"

    So I'm here breaking down your door

    Calling out your name

    I want to take away the pain

You know I'm here like I was before

    Screaming out your name

    Waiting for the change

[Chorus]I am captivated by

    The way you look tonight

And I've seen what you've been into

    So I will never cross the line

    I won't tell you any lies

    I was sent here for the rescue

[Choir]Leave your burden, weak and weary, I will lead you home

    Amazing Grace, how sweet the sound
