## **Saving Me**

## **Sheavy**

Some men come from nothing Some men will not bend Some will do the bleeding Til the bitter end If I was an angel I could make it rain Up upon the wild wild wood Like brother cain Some men come from nothing Some men will not bend Some will do the bleeding Til the bitter end If I was an angel I could make it rain Up upon the wild wild wood Like brother cain And the devils and the clowns Whiskey rye and cinders She's the one Save me from falling Come and save my mortal soul Save me from drowning

Oh baby I don't know Which way to go No one comes to see me No one knows my name I'm the lonely stranger A visitor by name No no no Turn me around Whiskey rye and ginger Devil wears a crown My only crime is sinning I'm homeward bound Hold me tighter before I drown Save me from falling Come and save my mortal soul Save me from drowning

And save my mortal soul
Sometimes baby now
I gotta hear you calling
Save me from falling
Come and save my mortal soul
Save me from drowning
And save my mortal soul
