

# Already Gone

## Alvvays

If there were an ocean  
We'd be wading in the distance  
There would be only water  
Creating our resistance  
A place to decompress  
A vat of chlorine's close enough I guess  
If there were an ocean  
We'd glisten on the surface  
Surface  
Instead of an eruption  
We bubbly only briefly  
When there is erosion  
We both regret it deeply

I arrived at the scene you were perfectly surrounded by pylons  
When the crowd separated the officer said you were already goneAppetite minuscule  
Middle of the night  
Drain the pool  
The summer's over  
I don't think I could find it  
I don't know how to find it again  
Don't think that I could get behind it  
I don't think I will ever find it again
