Deserted

Marbury

Oooohh ouuuh,
My heart is a desert land
So dry and cold
My heart is a desert land
Nothing for miles any way you go
I feel so different
Since you've been gone
And now you're looking
For another home
Since i didnt keep my word didn't do what I promised
Guess I wasn't honest, no
I said i'll always be true to you
But I gave up
Tell me can we make up cause
cuz..
My heart is a deserted city
Since your love moved out
And left me down, no
I'm lost and nothings out here with me
Move back to town and it change my heart
From this deserted city
I wish I was a weatherman
So I could see the rain
Before it ever lands
And start my pain
I would have done different
Would have switched my lane
But I went the wrong way down
A one way street
And now I gotta U-turn to change

Since i didnt keep my word didn't do what I promised
Guess I wasn't honest no
I said i'll always be true to you
But I gave up
Tell me can we make up cause
My heart is a deserted city
Since your love moved out
And left me down, no

I'm lost and nothings out here with me
Move back to town and it changed my heart
From this deserted city
There's no more apple pie at the corner store
no gas at the edge of town no more
no performance in the amphitheatre
do anything just to feel you again
Cause my heart is a deserted city
Since your love moved out
And left me down, no
I'm lost and nothings out here with me
Moved back to town and changed my heart
From this deserted city
Oooh
From this deserted city
Oooh
From this deserted city
Oouuh
From this deserted city
Oooooh
