Get a Room

1900

[Lloyd:]
We'll be kissin' in the club I know you feelin' me
I can see we gonna need a little privacy
So you can be as loud as you wanna be
I got an idea...Yo, we should get a room shaaaawty, yeah that's what we should do shaaaaawty
Put it on my blackcard, we can raid the minibar
Then I'm a take ya straight to the stars... In this roomWe should get a room, yo we should get a room, yeah that's what we should do oooh baaaby
We should get a room, yo we should get a room, yeah that's what we should do oooh baaabyKinky night-mares, wet dreams, sex with a king on a bed that's queen size, queen thighs
The one I wanna taste face
Lick with my tongue, hit the spot, make your body go numb,
Through it deep till ya body wanna run a-way
Baby let's cut there's no need to stay, uh daddy just the way you say
Say moan scream I'll be on top and you could tell me all that you fiend
Don't worry about your man, girl he a lame
Rockstar world let me bless your fame
Cause you frame is a flame
The lane that u chose reads my name
You look ready, so I assum that we should get a roomYo, we should get a room shaaaawty, yeah that's what we should do shaaaaawty
Put it on my blackcard, we can raid the minibar
Then I'm a take ya straight to the stars... In this roomWe should get a room, yo we should get a room, yeah that's what we should do oooh baaabyWe should get a room, yo we should get a room, yeah that's what we should do oooh baaabyHave you ever had sex on the clouds
Chills on your body from the ice in my mouth
Tipsy, from the bottles in the club
Sex so good make you think you in love
Uh, yeah I love them sounds
Get you so high you don't wanna come down
Hot like the summer, wet like the rain
Type of thang that make you fall in love with the pain
Take off like a plain, rocket, feel so good that you don't plan on stoppin'
Pullin your hair, hickies on your neck, body so slide, cause of all the sweat
And I love the way you bite your lip
The way you throw it back and work your hips
But I'm not saying I'm your man to be
I'm just here to fullfill all your fantasies...We'll be kissin' in the club I know you feelin' me
I can see we gonna need a little privacy

So you can be as loud as you wanna be
I got an idea...Yo, we should get a room shaaaawty, yeah that's what we should do shaaaaawty
Put it on my blackcard, we can rape the minibar
Then I'm a take ya straight to the stars... In this roomWe should get a room, yo we should get a room, yeah that's what we should do oooh baaaby
We should get a room, yo we should get a room, yeah that's what we should do oooh baaabyYou ready?
Let's go... Yeah, Yeah, HEY
