Are They Comin' For Me

Doro Pesch

Have you heard the latest news
War burning in the human state
Can't keep it in the name of God
Can't take it in the name of hate
Dirty lies of a promised peace
Running with the falling rainDown to the bone we lose compassionKeep a secret, lose the faith
Does heaven bleed?
What could it be, are they comin' for meIn the night a child's cryin'
All lost in another disease
Can't stand it in the name of God
Can't blame it in the name of peace
I'll trade you a hand grenade
For a night that doesn't screamDown to the bone we fight with passionKeep a secret, lose the faith
Keep your distance, feel the pain
Keep the fire, take the blame
Does heaven bleed?
What could it be, are they comin' for meAnd if I saw you
Would you recognize my face
War can change you
Rearrange you all the sameCHORUS :
