Your Heart And Mine

Us, From Outside

She is a mystery under my sheets
I kiss her lips
The moon and the stars
Illuminate her eyes.So tell me--what does it mean
To open up, open up our hearts
And lead each other in the dark?And this is not goodbye,
'Cause the gravity between your heart and mine
Will pull us together no matter how far we are
Or how long I'll be gone.So tell me--what does it mean
To open up, open up our hearts
And fall into each other's arms?By the time you close your eyes
This song will play,
Changing every dream you know.
Don't let it go, don't let it go.By the time you close your eyes
This song will play,
Changing every dream you know.
Don't let it go, don't let it go.I don't know why she's scared to show her face to me.
I don't know why she's scared to show her face to me.My love holds only promise.
My love holds only promise,
Only for you.
My love holds only promise,
Only for you.
My love holds only promise.
