Blush Response

Cityspeak

Do you like our owl?
Is it artificial?
Of course it is
Must be expensive, veryI'm Rachel
DeckardIts seems you feel our work is not a benefit to the public
Replicants are like any other machines
They are either a benefit or a hazard
If they're a benefit, it's not my problemMay I ask you a personal question? Sure
Have you ever retired a human by mistake? No
But in your position that is a risk
Is this to be an empathy test?Capillary dilation of the so called blush response
Fluctuation of the pupil
Involuntary dilation of the iris
We call it Voight-Kampf for shortMr. Deckard, Dr. Elden Tyrell
Demonstrate it, I want to see it work
Were is the subject?
I want to see it work on a personI want to see a negative
Before I provide you with a positive
What's that gonna prove?
Indulge me
On you? Try her
