

Death Comes Ripping

Misfits

Turn the lights down low
And bar the doors up
Future is coming
Future rising up Chopped up, hacked up, demon piece of meat
When doors flies open
High wind approaches you
Feel the evil
Feel the heat as I blast you open
Death comes ripping and I know it
Death comes ripping, you feel the heat
As death comes ripping, rip your back out
And death comes ripping out
Flesh inherit
Too weak for you
Crouching over
A little too late to beg and pray
Death comes ripping and it's going
Death comes ripping, you feel the heat
As death comes ripping, rip your back out
Death comes ripping and it's going
Death comes ripping, you feel the heat
As death comes ripping, rip your back out
Death comes ripping
And I know that death comes ripping out
