She Go, I Go

Xv

hey, ya its like
i wake up u gone
u wake up im gone
same story different song ha ha
u kno? uh
n-n-now look at how the pinstripes suit ya
baby wanna hop on that ass like Kouta
baby u fly like Mario 3 s-s-super
fell from the sky like a goom bug
feelin up that brazzie brazzie luca
tryna hold back but i read ya, Hoosier
lookin at ur eyes go hard like Medusa
never been a loser, u just always flew up
i try to say bye but u just throw the duece up
tryna hear my line but i just always lose ya
we go at it like bloods and hoovers
but we newer to ur city than the cruisers
u r, make it hot
let me cut like i did in a big paper rot
wake up without ur car in a vacant lot
red light, yellow light slow
the green lights on and she go
(hook)
she go, i go
she go, i go
she go, i go
so i never get to see when
she go, i go
she go, i go
she go, i go
i dont kno where im gonna be when
she go, i go
i write ur name up in the sky for u
(she go, i go
she go, i go
she go, i go)
u say hello and i say bye to u
(she go, i go)
lets catch this flight with every fly to u

u kno im down hopin everything is fine with u
(so i never get to see when u go)
let the song play
just let the song play
let the song play
baby u should get in bed then
i got a warm pillow u can lay ur head in
but we gota get up and chase that dough
l-l-like the gingerbreadman
its like seven minutes in heaven
and i just want one more session
so i tie u up
like the devilish desk man
then i eat u up
like a delicate dessan
damn u fly
change us in
and u do it like its ur proffession
hit the story book jeans like dressin
cooler than a senior
newer than a freshman
u,u,u my new obsession

even tho we aint progressin
cuz u gotta leave and
i gotta leave and
we dont ever ever ask questions cuz
when she go
(hook)
she go, i go
she go, i go
she go, i go
so i never get to see when
she go, i go
she go, i go
she go, i go
i dont kno where im gonna be when
she go, i go
i write ur name up in the sky for u
(she go, i go
she go, i go
she go, i go)
u say hello and i say bye to u
(she go, i go)
lets catch this flight with every fly to u

u kno im down hopin everything is fine with u
(so i never get to see when u go)
let the song play
just let the song play
let the song play
(Chiddy)
she go, i go
just another girl comin up through the world that raised me
and im aimin for the heart
but u gotta play it smart to make the girls go crazy
do that, its a new rap
and yo those double Ds got me in a boot trap
take over and i say who that
and she love the way im live like a Roots track
hey girl im in a quest for ur love
and all that weak shit sound extra to us
she would love me if my name wasnt next to the bus
cuz she was still there when that nigga was catchin a bus
and i think that its right to be said
u gotta learn how to live life on the edge
im the number one man
with a cumbersome plan
and thats to make love with my number one fan
(hook)
she go, i go
she go, i go
she go, i go
so i never get to see when
she go, i go
she go, i go
she go, i go
i dont kno where im gonna be when
she go, i go
i write ur name up in the sky for u
(she go, i go
she go, i go
she go, i go)
u say hello and i say bye to u
(she go, i go)
lets catch this flight with every fly to u
u kno im down hopin everything is fine with u
(so i never get to see when u go)
