Precious Pearl

Radney Foster

He left you behind
The same way you left me
Darling, I won't take pride
Or bore you with some victory speechI didn't come around to try
And pass judgment on you, girl
I'm just back here
Looking for a precious pearlA precious pearl
That I let slip right through my hands
A precious love
That I have longed for ever sinceHow'd a treasure so rare
Get left behind somewhere?
I was fool to let my anger blind me, girl
So I'm just back here
Looking for a precious pearlThe good times we once shared
Burned up with our last bridge
And the past can't be repaired
But we might start all over againSo if you could use a old friend
Back here in your world
Darling, I'm just back here
Looking for a precious pearlA precious pearl
That I let slip right through my hands
A precious love
That I have longed for ever sinceHow'd a treasure so rare
Get left behind somewhere?
I was fool to let my anger blind me, girl
So I'm just back here
Looking for a precious pearlDarling, I'm just back here
Looking for a precious pearl
