Breaking Me Again

Fm Static

I'm feelin' trapped inside this house
The words I want, they won't come out
Feel like a ghost inside these walls
It's like no one sees me at all
I wanna say what I wanna say
And hope no fear gets in the way
Whether I succeed or not
Help me heal this broken heart
When everything seems crazy
And I don't know if I can take it
I know I need a little more help than I've ever had
And a little more love than I've had yet
I feel shaken
And I don't know if I can make it
I know I need a little more faith than if I believe
'Cause every step I take, you're breaking me again
I get so lost inside my head
I'm saying things I've never said
The prayers I want, they won't come out
A war between confidence and doubt
I wanna say what I wanna say
And hope no fear gets in the way
But whether I succeed or not
Help me heal this broken heart
When everything seems crazy
And I don't know If I can take it
I know I need a little more help than I've ever had
And a little more love than I've had yet
I feel shaken
And I don't know if I can make it
I know I need a little more faith than if I believe
'Cause every step I take, you're breaking me again
Oh oh oh, oh oh, oh oh
Oh oh oh, oh oh, oh oh
Oh oh oh, oh oh, oh oh
Oh oh oh, oh oh
When everything seems crazy
And I don't know If I can take it
I know I need a little more help than I've ever had

And a little more love than I've had yet
When everything feels shaken
And I don't know if I can make it
I know I need a little more faith than if I believe
'Cause every step I take, you're breaking me again
When everything seems crazy
And I don't know If I can take it
I know I need a little more help than I've ever had
And a little more love than I've had yet
I feel shaken
And I don't know if I can make it
I know I need a little more faith than if I believe
'Cause every step I take, you're breaking me again
'Cause every step I take, you're breaking me again
