# Sex Planet

## R Kelly

Jupiter, Pluto
Venus and Saturn
I'm leaving Earth girl
To explore your galaxy
Ten to zero
Blast off, here we go
We'll be climaxin' until we reach Mercury
Girl, tell me are you ready girl
To take a trip out of this world?
I guarantee you'll like it
It'll take your breath away
Gonna get you so excited
Once I taste your Milky Way
Girl spend the night
Come take a flight with me, out into space
Girl you're sending me
These sexual energies
And I gotta grab it
Right now I've gotta have it
Shooting stars, a trip to Mars
I can get us there from where we are
So don't trip I got a giant rocket
Gliding through, just hittin' your pocket
Sex planet, come fly away with me
Right in my ecstasy, out in the galaxy
Sex planet, get ready for take off babe
Zoom, and have a safe trip babe
Now it's just us both
I've got the control
In the middle of darkness
Girl relax and just flow
I'm about to twinkle it
And touch your soul
Once I enter into your black hole
Baby ooh, ooh
Girl now that you're next to me
We'll be just like satellites
Watching over the Earth
We'll make space our paradise

Girl I promise this will be painless, painless
We'll take a trip to planet Uranus
Ooo just put your trust in me
And girl I promise destination
Will be a trip that you will never forget
I'm gonna take you out of this world
So hold on tight my dear
'Cause I'm about to take you out of here
And get you to my
Sex planet, come fly away with me
Right in my ecstasy, out in the galaxy
Get you to my sex planet
Get ready for take off babe
Zoom, and have a safe trip babe, oh
We'll stick a flag on the Moon
First couple to ever make love
On planet Neptune, ooo
And if time allow us
We'll be gone for hours
I won't stop until I give you
Meteor showers
So if you want it say, ooo
And if you need it say, ooo
If you really gotta have it say, ooo
And you want me to take you to space
Sex planet, come fly away with me
Right in my ecstasy, out in the galaxy
Let me take you to my sex planet
Get ready for take off babe
Zoom, and have a safe trip babe
Sex planet, come fly away with me
Right in my ecstasy, out in the galaxy
Sex planet, get ready for take off babe
Zoom, and have a safe trip babe
So get ready for lift-off babe
Get ready for lift-off baby
You ready?
Yes
Hold on to this
Here we go
R-minus ten, nine
Eight, seven, six, five
Four, three, two, one
Babe, start our engines
And now fly slow

Oh, oh, oh baby
Fly slow
Said it feels so good
Girl when we fly slow
Said my rocket is so full of fuel baby
Yes it is, fly slow
Therefore, we can ride
On through the night, fly slow
Baby, we won't stop babe
We won't stop babe
