Most People Get Married

Patti Page

When the kisses get so long that you can't catch your breath
And the huggin' gets so strong that it's gotcha scared to death
Most people get married (married)
That's what they do-o-o
Most people get married (married)
And that's what I wanna do with youWhen you only wanna walk (let's walk) together
Only wanna talk (let's talk) together
Only wanna touch (let's touch) too much
You never wanna say "Good night"Most people get married (married)
That's what they do-o-o
I-I-I wanna get married (married)
An' I only wanna do it to youWhen you light up like a flame each time your baby calls
And the way he says your name has gotcha climbin' walls
Most people get married (married)
That's what they do-o-o
Most people get married (married)
And that's what I wanna do with youWhen you're feelin' in your heart (doo-wop), what I feel
Reelin' in your heart (doo-wop) like I reel
An' you wanna shout (you shout) "Look out,
Somethin's gotta give tonight"Most people get married (married)
That's what they do-o-o
I-I-I wanna get married (married)
An' I only wanna do it to youI-I-I wanna get married
An' I hope you wanna do it, too
