Hero

Noah

If you ask me how I feel
I want to burn my lonely soul
Fly me through the danger zone
Like a shadow in your homeSo let me be your hero
And cast away your sin above
Let me be your hero
And cast away the sin you ownFly me now and don't despair
I'll be flying through your doorSo let me be your hero
And cast away your sin above
Let me be your hero
And cast away your sin[Repeat x5:]
Stand up I'll be on your side
Take my hand today
We can fly together
Let me lead the waySo let me be your hero
And cast away your sin above
Let me be your hero
And cast away the sin aboveYour hero
(Let me lead the way)
Your hero
(Let me lead the way)
