# Glorious

## Newsboys

And if I sing out in the dark of night
Or praise You in the light of dawn
Hear my song and lift me on Your wingsAnd if I worship You in solitude
Or join a choir ten thousand strong
Hear my song 'til all creation singsGlorious, shining so glorious
Though I stumble, though I fall You remain glorious
Towards Your light I come running, I come running
Into Your arms I come running, I come runningYou have searched me, you have known my heart
You've heard my every anxious thought
Hear my song, it's all I have to bringThough the battles come this much is known
The victory's won by You alone
Hear my song my Savior and my King
I'm singingGlorious, shining so glorious
Though I stumble, though I fall You remain glorious
Towards Your light I come running, I come running
Into Your arms I come running, I come runningEvery faithless mission, every false ambition
Here I lay them at Your feet
As in heaven, as on earth I will ever sing Your worth
You alone make me completeGlorious, shining so glorious
Though I stumble, though I fall You remain glorious
Towards Your light I come running, I come running
Into Your arms I come running, I come runningGlorious, shining so glorious
Though I stumble, though I fall You remain glorious
Towards Your light I come running, I come running
Into Your arms I come running, I come running
Towards Your light I come running, I come running
Into Your arms I come running, I come running
