Billy was afraid to make
A decision on his on
He was told every since
He was a boy

He didn't measure up
He learned over the years
To put up a good fight
But deep inside it was hard to love
Or trust anyone

Then into his life
You came gently
And he was mended
He flashes a genuine smile
As the tell the world all about it

You were highly recommended
You hold the key
To make love free
You were highly recommended
By those how know
Who can change your life
And make it getter

Lisa was a beauty queen
The girl had every thing
She had fine cars
She wore the lightest style
A new toy every week
She learned over the years
To put up a good fight

But secretly she was trying to hide
Her internees inside
In to her life you came like
A fresh morning due
And a sunny day
She flashes a genuine smile

As she the tell the world all about it

You were highly recommended
You hold the key
To make love free
You were highly recommended
By those how know
Who can change your life
And make it better

By those how know
Who can change your life
And make it getter

Yes you can

He can do the same for you
If you only give him half a chance
He the son the shinning one
He's a real good friend

To make love free
