King for a Day

Cyclefly

How can I fix this broken wish
When I always miss it
Avoiding all becauseI'm wishing all my troubles away
Wishing all my troubles awayHow can I miss this empty kiss
When I swallow it
Destroying all becauseI'm wishing all my troubles away
Wishing all my troubles away
Wishing all my troubles away
King for a dayAll because you came crashing in and fading out
Sometimes it's hard to let it out
Came crashing in and fading out
Sometimes it's hard to let it outKing for a day
(Wishing all my troubles away)
King for a day
(Wishing all my troubles away)A king for a day
(Wishing all my troubles away)
A fool for a day
All because I'm wasting all my wishes away
A king for a dayAll because you, came crashing in and faded out
Sometimes it's hard to let it out
Came crashing in and fading out
Sometimes it's hard to let it out
