Two Clouds Above Nine

Deee-Lite

Just good things today
Our love's so high
The needles off the dial
Like a happy tear in your eye
You can't hide the smileJust good things today
I know I got mine
It's like two clouds above nine
The ninth degree of love is in our mind
And we just chose the timeAfter the rain
I'm on my way to better days
And I must say
No puddle's splash keeps me away
After the rain
Rainbows find my pot of soul
I can't complain
I'm just in from the coldAfter the rain
I'm on my way to better days
And I must say
No puddle's splash keeps me away
Reflections I've seen
Like puddles mixed with gasoline
But I can't complain
I'm on my way to better days
Two clouds above nine
