Show Me

Alex B

[Chorus]
Why u lookin at me like u want me
If she wasnt near me, upon me
Damn girl why u acting lonely
Didn't you know that she'd be watching closely.
Shoulda listened when my hommie told me
Heard you're tryin normally console me
There's alot of things you wanna show me,
When she's not around me, baby call me..
[Verse 1]
You shoulda never left me alone.
Without a woman that you left,
You shoulda seen her get ontop of me.
Everyday day she callin my fone,
To talk to you and;
I knew that her real intention
Was to talk to me.
[Verse 2]
And i dunt wanna lose control
Coz i know that yall was close
and Now she wanna give her heart to me
Now you wanna make it my fault
You shoulda known that from the start
That she would wanna get involved with me..
[Repeat Chorus]
[Hook]
Oh no.. Don't go.. Don't know..
All we got here..
Oh no.. Go slow.. Don't go..
Why u wanna leave?

[Verse 3]
Now baby girl won't you hold on
And let me know just what she told you
Coz I knew she had alot to say.
And even though I know that its wrong
You gotta know you're my lady
And I aint gonna let you walk away
And now you wanna leave me alone

Im trying to make you understand
But you don't really wanna talk to me..
And now you backin up and you gone,
And you forgot bout the dream we had
You wanna take it all the way..
[Repeat Chorus]
[Repeat Hook]
[Verse 4]
When she lead the other one to the door,
And now Im feeling that she really shoulda been here,
From the start with me.
And aint no point of takin it slow
Now we know that Im the one you want
And you're the one I want for me.
We move around, the bed to the floor,
We moan around, you moan,
I know, I love the way you brought it on to me
Won't have it any other way,
Dont ever take your love,
No way, I need your now for me.
[Repeat Chorus to fade..]
