## Whirlwind Heat

Good evening I unzipped my skin  
Thankfully unscrewed my head  
Exactly as I always do  
When I prepare myself for bed  
And while I slept this co-co came as naked as could  
be  
He put on the skin and screwed on the head  
That once belonged to me Now that I have heard I'm doing things and saying  
things  
I never do or say I tickle the children and kick the  
men  
And dance my lady all the way across my bed  
Get out of town you filthy clown
