Steam

Mycelia

Ah steam
You know it's steam
It's now been fifteen days
Since you've been steam at me
And I don't want your frustration and your madness
Pushed and blamed on me
'Cause you're crazy through the day
And you're crazy through the night
And what the hell, you've been crazy all your life
And I don't want people thinking I'm not treating you right
It's the nature of it
Steam
When you're saying those things
That you don't really mean
You can blame it on the rain
You can blame it on the heat
It's the nature of it
Steam
I have my morals
And I have decent respect
For our relationship
I hope you are doin' all your best
Well I'm not so great
But I'm better in other ways
You can't see them
But I'm trying anyway
And it's the nature of the game
That's what I claim
It's the nature of it
Steam
When you're saying those things
That you don't really mean
You can blame it on the rain
You can blame it on the heat
It's the nature of it
Steam
It's the nature of it
Steam
When you're saying those things

That you don't really mean
You can blame it on the rain
You can blame it on the heat
It's the nature of it
Steam
You seem to put it all on me
The sky, your health
You dreams and your beliefs
And I seem to protect and respect everything
Too naturally
Nature calls, where ya gonna be
I know you're still mad with the things that I did
But you need to wizen up if you want to stay in love
Making up is still the best part, open up your heart
The grass is green and the sky is blue
(Steam)
And the middle of my soul is in love with you
You see my point, it's all about steam
(Oh, oh, oh, oh, oh)
Take my hand and lets walk to the land of dreams
Steam
More days, more days
I'm steamed in every way
I said no way, no way
I'm steamed in every way
You can blame it on the rain
You can blame it on the heat
It's the nature of it
Steam
It's the nature of it
Steam
When you're saying those things
That you don't really mean
You can blame it on the rain
You can blame it on the heat
It's the nature of it
Steam
More days, more days
I'm steamed in every way
I said no way, no way
I'm steamed in every way
I said more days, more days
I'm steamed in every way
I said no way, no way
This is where I stay
