

# Gumbo

## Phish

There's a mouse starin' out of the window  
His car is trapped in the snow  
He's planning a family vacation  
But he just can't go Around the next corner's a red bird  
His feathers are trapped in a sling  
He's passed by some gunslinging parrot  
Who's jealous he ain't got no grin There ain't no time to stash the gumbo  
Or rattle around in a cage  
The sacrificed child's made bubbles  
And spittle is everywhere enraged  
In the hot sand I ran on my feet  
They're blistered and caked with debris  
Chez rolez is guarding the tote board  
While angry piddles with glee There's a fool writing notes out on sandpaper  
He's sending them off to himself  
He gets them a couple days later  
Who put them along his top shelf If you get tired of shavings  
And carve up a good hunk of wood  
Remembering to check on the sausage  
He's got cooking somewhere look good There ain't no time to stash the gumbo  
Or rattle around in a cage  
The sacrificed child's made bubbles  
And spittle is everywhere enraged  
In the hot sand I ran on my feet  
They're blistered and caked with debris  
Chez rolez is guarding the tote board  
While angry piddles with glee There ain't no time to stash the gumbo  
Or rattle around in a cage  
The sacrificed child's made bubbles  
And spittle is everywhere enraged  
In the hot sand I ran on my feet  
They're blistered and caked with debris  
Chez rolez is guarding the tote board  
While angry piddles with glee There ain't no time to stash the gumbo  
Or rattle around in a cage  
The sacrificed child's made bubbles  
And spittle is everywhere enraged  
In the hot sand I ran on my feet  
They're blistered and caked with debris

Chez rolez is guarding the tote board  
While angry piddles with glee
