Second to None

Paul Stanley

We both had stories, loves, and lifetimes before
Left us wanting for more but it kept us on that journey
With everyone we meet, we open the door
There were others for sure, but they never got to know meIt's all a way to a life worth living
So don't mistake what I'm givin'When every day is done I only wanna run to you
Let me hear the words I'm sayin'
When you're in trouble I will be the one to pull you through
You might not be the first but for me you're always second to noneSometimes the fears we have will get in the way
And the things people say can make it so much harder
The chance for love can look you right in the eye
Yet it passes you bySo live a life with no happy ending
But I won't lose it all pretendingWhen every day is done I only wanna run to you
Let me hear the words I'm sayin'
When you're in trouble I will be the one to pull you through
But for me you're always second to noneLife has a way of making things brighter, lighter
Don't throw it away, it takes a way to see clearly, believe meIt's all a way to a life worth living
So don't mistake what I'm givin'When every day is done I only wanna run to you
When you're in trouble I will be the one to pull you through
But for me you're always second to noneWhen every day is done I only wanna run to you
Let me hear the words I'm sayin'
When you're in trouble I will be the one to pull you through
You might not be the first but for me you're always second to noneSecond to none
