

Cloud Nine

[Leigh Nash](#)

It might seem strange just that a girl like me
Would go crazy
Over a simple guy like you
Calling me baby I'm too high everybody knows
I'm walking a real tightrope. I know, I know, the wind will blow
The sky may shake but your arms will hold
When I'm on your mind, I'm on cloud nine The way I feel, a bowl of tears
I'm floating light in your atmosphere
When I'm on your mind, I'm on cloud nine Twenty-four hours in a night and day
Should be plenty
For me to chase your thoughts my way
And you can catch me I'm too high everybody knows
I look at you and I'm in control I know, I know, the wind will blow
The sky may shake but your arms will hold
When I'm on your mind, I'm on cloud nine The way I feel, a bowl of tears
I'm floating light in your atmosphere
When I'm on your mind, I'm on cloud nine I'm too high everybody knows
I'm walking a real tightrope I know, I know, the wind will blow
The sky may shake but your arms will hold
When I'm on your mind, I'm on cloud nine The way I feel, a bowl of tears
I'm floating light in your atmosphere
When I'm on your mind, I'm on cloud nine I'm on cloud nine, I'm on cloud nine
