

# Fearless

Olivia Holt

I got the upper hand now  
And you're losing ground  
You never had to fight back  
Never lost the round You see the gloves are coming off  
Tell me when you've had enough Ready for a showdown  
And we're face to face  
I think I'll rearrange it  
Put you in the place  
You don't get the best of me  
Check it, you're afraid of me I'm stuck in your head  
I'm back, back from the dead  
Got you running and scared  
I'm fearless  
I'm calling you out  
I'm taking you down  
Don't you come around  
I'm fearless  
I'm fearless I'm fearless You used to make my heart pound  
Just the thought of you  
But now you're in the background  
What cha gonna do?  
Sound off if you hear this  
We're feeling fearless  
We're feeling fearless I'm stuck in your head  
I'm back, back from the dead  
Got you running and scared  
I'm fearless  
I'm calling you out  
I'm taking you down  
Don't you come around  
I'm fearless I'm stuck in your head  
I'm back, back from the dead  
Got you running and scared  
I'm fearless  
I'm calling you out  
I'm taking you down  
Don't you come around  
I'm fearless  
I'm fearless
