Sometimes Love

Chris Rice

Is our world spinning backwards?
What has brought about this change?
Cant you see that people arent the sameWish I were dreamin
And could wake up from my sleep
Find us all the way we used to beCause the love that used to be is dyin
Is anybody even tryin?
And I dont know how, I dont know why
But somethin in my soul is cryinListenSometimes love has to drive a nail into its own hand
Sometimes love has to drive a nail into its own hand, into its own handOne pair of Hands broke some bread and washed some feet
Opened eyes and soothed an angry sea
Belong to a Man who could see our deepest need
And showed us love the way it has to beCause He knew the price that love requires
And He laid down His own desires
He stretched out His hands to save His friends
And said 'no other love is higher'So listen to me now singinSometimes love has to drive a nail into its own hand, into its own hand
Sometimes love has to drive a nail into its own hand, into its own handLove can change us, love can make a way
Only love can change us, love can make a way
Only Jesus' love can change us, love can make a way
Only Jesus' love can change us, love can make a wayLove can change us, love can make a way
Love can change us, love can make a wayWish I were dreamin
And could wake up from my sleep
And find us all the way we used to be
