The Usurper

Shattersphere

Take my rights, right with my mind
Now enslave me
Bending backwards, in a bind
The rain still hates meI have risen in this time of need
A false icon indeedTo take my life back for me
Take away all I have to sayTo take my life back for me
Take it away, take it away, andDon't deny me
You'll never find the wayEvery reason needs a cause
Silent screaming
For no reason I have fought
Still believingWrinkles in Time, take back what's mine
