Fight the Frequency

American Hi-Fi

Pirate satellite transmission
A truth is power if you listen
So listenWith radiation low
This ghost becomes my skin and bones
Our future lies in sound and visions
CollisionThis is our time to shine
I feel us breaking free
Start static on a chain reaction
We can't fight the frequencyThis is a new day rising
I feel it coming on
Detonate, detonate the signal
Transmission turn me onSilence, silver constellations
Feel the night above the nations
We're waitingSurrender to the sky
A flick of flame before we die
Future fire never burn out
Don't burn outThis is our time to shine
I feel us breaking free
Start static on a chain reaction
We can't fight the frequencyThis is a new day rising
I feel it coming on
Detonate, detonate the signal
Transmission turn me onHold on to this sunrise
We all want a better life
Hold on to this sunrise
We all want a better lifeThis is our time to shine
I feel it breaking free
