Fascination

DeFault

Cut up and silenced
And I am your conscience
Afraid to give up yourself
You live in your own world
Keeping your distance
We all have a story to tellWell, maybe it's time you give it to meYou got something inside
What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascinationThe reason you're faking
The roads that you've taken
You swore you'd never go down again
If there's no one to trust in
Then all is for nothing
Can you live with that till the endWell, maybe it's time I give up on youYou got something inside
What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascinationI
Have tried
So long
To make you feel like you have a home
But I
Want you to know
That you don't have to go through this alone
Open your soul
You need to let go
I only want to show you
What you've never knownYou got something inside
What you trying to hide
Let me in your isolation
You got something to show
Close your eyes and let go
Let me in your fascinationYou got something inside
What you trying to hide
Let me in your isolation
You got something to show

Close your eyes and let go
Let me in your fascination
