Captain Nemo

Barbie Bones

Captain Nemo is too good for you and me
Take a voyage to the bottom of the sea
He's a riddle you will see in the middle of the sea
If you ask him things about life, then he will say
Oh no, I'm far too continental for mankind
I don't interfere in your life
See me as the searcher with the answers
To your world under the sea
Captain Nemo knows the world but we don't know
What control of light and darkness means, he'll show
If we come with peace at heart, he may help us to restart
What went wrong so long ago, from down below
Oh no, I'm far too continental for mankind
I don't interfere in your life
See me as the searcher with the answers
To your world under the sea
See him as the searcher with the answers to mankind
He's far too continental
Though he's wiser than all man
He is curious about the plan
Violated by the man, the master plan
Oh no, he's far too continental for mankind
He don't interfere in your life
See him as the searcher with the answers
To your world under the sea
Oh no, he's far too continental for mankind
He don't interfere in your life
See him as the searcher with the answers
To your world under the sea
Oh no, he's far too continental for mankind
Under the sea
