bridges

Rebecca Ferguson

(Oh.. Hey hey eh..)Oh my, oh my god
I don't know, I don't know where we could start
The bombs we were throwing
We should have known
Something would die
I look out my window
Watching my world blow
Before my eyes..Chorus:
I see bridges burning,
crashing down in the fire fight
The time"s not turning
The war is over, we both know why
You"re not coming home
You"re not coming home
I"ll watch these bridges burning on my ownJohn Legend:
We loved, we loved hard
Who knew that this love is bad for our hearts
Threw down our defenses, lost all our sense
Our bodies exposed
The moments of weakness slowly defeat us
Stole all our hopeChorus:
I see bridges burning,
crashing down in the fire fight
The time"s not turning
The war is over, we both know why
You"re not coming home
You"re not coming home
I"ll watch these bridges burning on my ownBridge:
Oh I,
You know (...)
Oh I,
You don't know that I care
Oh I,
From where I stand
I see bridges burningChorus:
I see bridges burning,
crashing down in the fire fight
The time"s not turning
The war is over, we both know why

You"re not coming home
You"re not coming home
I"ll watch these bridges burning on my ownI"ll watch these bridges burning on my own
