Damnation

Evergrey

All is gone
And my soul screams sorrow
All is lost
As I shiver for tomorrow
TomorrowI want to see this sorrow end
I want to feel joy again
The demons inside are here to stay
And life as know it fades awayWill the wounds in me never heal
The scares you left always be
Dare you turn behold the hurt you've done
All I wish for you is DamnationI want to see this sorrow end
I want to feel joy again
The demons inside are here to stay
And life as know it fades awayI want to see this sorrow end
I want to feel joy again
The demons inside are here to stay
And life as know it fades awayFades away...
