I Can Destroy

Paul Gilbert

A fragile love
Ain't built to last
I make my future
From the wreck of the past
It's being this way
Since I was bornI love anything that I can destroy
I love anything that I can destroyAnd this guitar
Is built to play
She was not far
Just yesterday
She cries and screams
For faith and ___I love anything that I can destroy
I love anything that I can destroyAnd this old world
Is made for me
I can move the mountains
And push them into the see
Fly across the sky
And take a __ at the moon
Someday I'll be leaving
But it won't be too soon
Yes I'm killing time
And I mean to enjoyI love anything that I can destroy
I love anything that I can destroyI love anything that I can destroy
I love anything that I can destroy
