Megaton

Population 1

Hello my precious my Megaton
You are my one and only Megaton
It's been a while since I've looked at you
At least 3 seconds since I've thought of youI know it sounds a little airy
But I can't help what you do to me
I'm just a victim of your DNADon't let the sun pull me down
It's not easy
Don't let the one thing I long for escape meIt's not about your mind
It's when you walk away with what you leave behindBack up with your Megaton
Let's roll with your MegatonInfatuated with Megaton
I get afraid I'm gonna hurt someone
I'm so obsessed with your monstrosity
Secret confessions of a casualty
Can't stop this sweat coming over me
I kinda wish that you would set me free
Who am I fooling I'm a hypocrite I crave youDon't let the sun pull me down
It's not easyIt's not about your mind
It's when you walk away with what you leave behind
It's not about the love
God it's on your back it's sent down from aboveBack up with your Megaton
Let's roll with your Megaton
