Hide Away

Deep Fried 5

Hide away, hide awayMake sure that I never come back
Gotta disappear and I never come back
Gotta make sure that I never come back
Gotta make sureI'm gonna pack up all my bags, vanish while I can
Leave this town behind, pay it all no mind
I'm gonna fly away and no one's gonna find meKeep my destination quiet
Take an early morning flight
And never tell a soul just light out on my own
I'm gonna fly away and no one's gonna find meI'm gonna wear some fake disguise
Change the color of my eyes, I'm going hide away
Yes, and you're gonna be surprised
I'll be wise before my time, I'm going hide awayMake sure that I never come back
Gotta disappear and I never come back
Gotta make sure that I never come back
Gotta disappearI'm gonna rent a small hotel, throw away my cell
Cut off all my hair, sweep away my cares
I'm gonna fly away and no one's gonna find meI'm out of everybody's reach
Out on some twisted beach, I'm gonna hide away
Dissolve right out this scene
Out of everybody's dreams, I'm gonna hide away, hide awayMake sure that I never come back
Gotta disappear and I never come back
Gotta make sure that I never come back
Gotta disappear and I never come backHide away, hide away
Hide away, hide away
Hide away, hide awayI'm never gonna come back again, baby
I'll never come back again
Make sure that I never come back
Gotta disappear and I never come back
Gotta make sure that I never come back
Gotta disappear and I never come backGotta make sure that I never come back
Gotta disappear and I never come back
Gotta make sure that I never come back
Gotta disappear and I never come back
