Don't Look Back

Kim Lukas

I, can see what you're trying to say
You're bored of me that's OK
Don't feed me with "Let's be friends"
Well, you've got what you want now go
Don't act like you care and cry
You're sorry, alright, I knowDon't look back just leave
For you this was just a game
Like weather from sun to rain
You've turned from hot to cold
Playing with my mind
For you this was just a game
Like weather from sun to rain
You've turned from hot to cold nowDon't look back just leave
Just go
Don't look back just leave
Just go
Don't look back just leaveMust, forget all it's in the past
I knew it would never last
Strange but I'm kinda glad
Boy, I know I'm too good for you
So here's what you gotta do
Get a life and change your hairDon't look back just leave
Just go
Don't look back just leave
Just goDon't look back just leave
Just go
Don't look back just leaveI can see what you're trying to say
You're bored of me well that's OK
Don't feed me with, "Let's be friends"
No no no no
I can see what you're trying to say
You're bored of me well that's OK
Don't feed me with, "Let's be friends"
No no no no
Boy, I know I'm too good for you
So here's what you gotta do
Get a life and change your hair
Yeah yeah yeah yeah
