

# I Thought I Had It Made

## Dr. Feelgood

(lee brilleaux/gypie mayo)Sitting in a downtown discotheque  
Saw a cute little girl that stole my breath away  
Line of guys that had the eyes on her  
To my surprise she said 'i beg you sir'I stay  
I thought I had it madeSat at a table for a couple of drinks  
Moving closer and she kissed my neck  
That's when I knew that I was in with a chance  
Records were a playing and she asked for a danceThey played  
I thought I had it made- guitar break -We were a swinging to the moody blues  
Looked into my eyes I thought I blew a fuse  
Music stopped playing the lights went out  
Dropped my drink when I heard them shoutIt's a raid  
I thought I had it madeHey everybody take a look at me  
Didn't come to until a quarter past three  
Got no money couldn't put up the bail  
Judge said 'son, I'm gonna keep you in jail.'I stay  
I thought I had it madeThought I had it  
I thought I had it made  
(repeat to fade)
