## I Do

## **Gin Wigmore**

Starlight kicking around without you by my side makes me feel all right
Start this day as new
Until I wake up
Find myself in our breakup

Today ain't gonna be great but

Can we ride this through? You know I need you sometimes And I'll hold on to why Don't matter what my reasons are I still do love youI do I do I do I do I do I choose you, So why don't you choose me too?

It's no mistake or a lonely day I want youI can change babe my bitter, cold and dark days are staying away when I see you

And your beautiful ways

To be high, low, stop, go I don't know But if your thinking 'bout leaving me, no no no We can get through it, just let us do itYou know I need you sometimes and I'll hold on to why Don't matter what my reasons are I still do love youAnd I do, I do I do I do I choose you, So why don't you choose me too?

So why don't you choose me too? Mmm yeah It's no mistake no, it's not even a lonely day and I want you, so why don't you want me too?

I do I do, I do I do
