Down With the Ship (Slight Return)

Scatterbrain

by Scatterbrain
from the recording titled 'Here Comes Trouble'Sailing on a big ship
Deaf, dumb, blind.
Sailing through a wild one.
To the other side.
I'm not going down with the ship.
Everyone's captain
Trying to tell you what to do.
I wan't to do what's right for me.
For me - not you
I'm not going down with the ship
The ship is going down fast
But I won't be around.
I'm jumping in a lifeboat
And heading for dry ground.
I'm not going down with the ship.----------
