The Weekend

J. Stalin

What if everyday I woke up late
I did whatever I felt like?
I felt clever, I'd go on adventures
I'd run with lions in the dead of night
Wouldn't it be nice
To Saturdays and Sundays?
When I fall down
I know I've got this weekend to live
I'm gonna get my freak on
It carries me and we'll be rocking our playlist
I won't back down
I'll live it up like Hendricks
Now I'll paint my face just like his
Let's own this town
It's all about the weekend
So let's get down
It's time to flaunt our innocence
Try new things that don't make sense
Or maybe just hang out with friends
I can wait a lifetime or I could lose a lifetime
If I don't change my ways, get out of this rat race
We could do this right
To Saturdays and Sundays
When I fall down
I know I've got this weekend to live
I'm gonna get my freak on
It carries me and we'll be rocking our playlist

I won't back down
I'll live it up like Hendricks
Now I'll paint my face just like his
Let's own this town
It's all about the weekend
It's all about the weekend
So let's get down
Get down, get down
Wouldn't it be nice
To Saturdays and Sundays?
When I fall down

I know I've got this weekend to live
I'm gonna get my freak on
It carries me and we'll be rocking our playlist
When I fall down
I know I've got this weekend to live
I'm gonna get my freak on
It carries me and we'll be rocking our playlist
I won't back down
I'll rock out like Nirvana
Now we time lose like Madonna
It carries me
It's all about the weekend
It's all about the weekend
So let's get down
Let's get down
Let's get down
Down
