All Around Me

Savage Garden

Well you know every time
I look at that expression printed on the page
I think I hear you
Whispering the magic and the
Compliments I need so badlySo baby come on, oh, so baby come on
Now I've been running circles around the notion
That you'll find me baby one day maybe
But all the psychic powers of suggestion
I've been sending your way
So can't you hear me say?I want your arms all around me
I want your face, yea, all around me
I want your perfume all around me
I like the way you move
And do the funky groove heyAll around me I want you, all around me I need you
I want your arms all around me
I want your face, yea all around me
I want your perfume all around me
I like the way you move and do the funky grooveLike a cold Chardonnay chilled for a day
Your smooth and crisp and on display
Like Cartier, Armani, like tag, Gucci, Versace
In the middle of the night your a kiss so long
You're the only good thing when all is wrong
You're a magic time reversal clock
You're the fries on the side with a cherry on top
You're sleek, velvet, gold lame
Patent leather, enchante
You're a legend, you're a glamour queen
God I'm running out of words but you know what I meanAll around me I want you, all around me I need you
All around me I want you, all around me, so can't you hear me say?
I want your arms all around me
I want your face yea, all around me
I want your perfume all around me
I like the way you move and do the funky grooveI want your arms all around me
And I want your face yea, all around me
I want your perfume all around me
I like the way you move and do the funky grooveSo slide into your Jaguar, or Porsche baby, there you are
Well chop chop darling, Au Revior
Pick your things up, your a star
Oh yes, yes you are darling

Its you its you darling
Thats right thats right now
Its you
Darling
