

Some People

Ringo Starr

When it's start to go wrong and I feel like it can't go back
It's just a bump in the road it's just a penny that's on the track
Some people can't move on
Some can't let it go
But I can and you can
So why don't have to worry about that
Sometime it seems like we'll never be whole again
Like an oak in the wind we bend a little bit now and then
Some people won't reach out
Some people won't reach in
But I will and you will
So why don't have to worry about that
Hold on tight
Try with all you might
It might get a little rough sometimes
Like a ship on a stormy night
But it's all gonna be all right
Hold on tight
Try with all you might
It might get a little rough sometimes
Like a ship on a stormy night
But it's all gonna be all right
