Tiny Planes on Canvas

Circulatory System

Well I know they can see a world that no one else can
I know they can see a world that no one else canLaying down planes, it's a way of life
Selecting fashions, it's a science you've known
Layer by layer, they make the world look flyWell I know they can see a world that no one else can
I know they can see a world that no one else canLaying down planes, it's a way of life
Selecting fashions, it's a science you've known
Layer by layer, they make the world look fly
No one else can
