House of Fire

Cable35

There's a recipe
There's a recipe for this
there's a recipeSomething not to miss
And I look into her eye
And I look into her eyeShould I ask myself who's out the window
or start a riot a riot a riotWelcome to the House of fire
Welcome to the house of fear
Welcome to the House of fire
Come on out the end is nearNeed get some sleep
Rest my head against the wall
my hands and my feetThis ain't just a dream
Dirty places look so clean
Dirty places look so cleanShould I ask myself who's out the window
or start a riot a riot a riotWelcome to the House of fire
Welcome to the house of fear
Welcome to the House of fire
Come on out the end is nearCome along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like it
Come along You'll like itThere's a recipe
there's a recipe for this
there's a recipeThis ain't just a dream
Dirty places look so clean
Dirty places look so cleanShould I ask myself who's out the window
or start a riot a riot a riotWelcome to the House of fire
Welcome to the house of fear
Welcome to the House of fire
Come on out the end is nearWelcome to the House of
Welcome to the house of
Welcome to the House of fire
Come on out the end is near
